THE DELINEATOR.

After years of toil and great expense, this work has at length been completed, and we may safely assert that no work was ever published in any language, or in any country, of greater utility for commercial purposes. It is of interest and importance to every individual, of every age, condition or sex, who handles a dollar of the miscellaneous and precarious paper currency of our country.

The paper money of the United States is of such infinite variety of design and execution, that the artful and accomplished counterfeiter can sport upon and defy the preceptions of the great majority of our people. And the frequent and cruel impositions so repeatedly practised upon the honest and credulous, have derived their impunity from the fact that other works and Detectors, have only attempted to direct attention to the spurious and counterfeit, while in *our DELINEATOR alone*, has the idea been developed of minutely describing the genuine Bank notes.

A new counterfeit or spurious Bank note is prepared by a rogue who with his numerous accomplices and confederates distribute and circulate their issue simultaneously, in different and distant localities. These notes (not being described in the Reporters and Detectors) being readily taken by the unsuspecting, and by the imperfect judges, in a short time obtain an extensive circulation; and days, weeks, and, in some instances, months have elapsed, before the vigilant Bank Note Reporters have informed the community that they have been fearfully victimized. Thus being at last exposed, but not until he has reaped a rich harvest from his first issue, the counterfeiter again takes the plate to his haunt and alters it to some other Bank or denomination, and may do the same thing again and again, and each time with impunity and profit, before the *Detectors* can act as an efficient check on his proceedings.

But the *DELINEATOR* always and in every case acts as a guard and preventive against these impositions and frauds, by describing every genuine Bank note, and every part of every note, dissecting and analyzing all denominations of all notes of every Bank, organized and doing business in the United States and British North America, showing each note made up of different designs, vignettes, &c.; each denomination differing so materially, that no one of the notes could be altered to another and larger denomination, without the certainty of an immediate detection, on reference to the fac-simile of the plates (in the *DELINEATOR*) of the particular Bank, on which such fraud has been perpetrated. Herein is exemplified the great superiority of *THE DELINEATOR* over all Reporters and other Bank Note Detectors.

Spurious or altered notes, are by far the most numerous class of bad money, and bear no resemblance to the genuine. They are detected at a glance by reference to the *DELINEATOR*, there being therein portrayed a perfect Daguerrotype of the genuine notes; the dress and design of which are as unlike the spurious as is light to darkness.

Counterfeits or fac-simile notes are comparatively rare. They are intended to resemble and imitate the true, and calculated to circulate where the genuine are well known, but can be more easily detected by close inspection than any other class of bad bills. Very few of this description are in circulation, as will be seen on reference to our Reporter.

In a word, *THE DELINEATOR* detects all past, present and future spurious and altered notes; and is of more value, protection and security to the commercial interests of the country, than all the Detectors, Bank Note Lists and other works which up to this time have been published. In fact *THE DELINEATOR* is almost indispensable—for it goes ahead of, and anticipates the counterfeiter—cutting off his success, while the Reporters and Bank Note Lists but follow after, and to use a homely but forcible expression, “can only lock the stable after the horse is stolen.”

We have herein endeavored to show the utility and importance of this work, and with the promise that it shall be always correct to the date of its issue, we are satisfied to send it forth to the public on its own merits.

Below will be found Commendations from all the First Class BANK NOTE ENGRAVING COMPANIES, in the Union, endorsing HODGES' NEW BANK NOTE PLATE DELINEATOR. This testimony, together with the approval and patronage of nearly every Bank and Broker in America, at once stamps it as the most valuable publication of the times—indispensable to every well regulated counting room, or business place.

CERTIFICATES:

OFFICE OF RAWDON, WRIGHT, HATCH & EDSON, }
New York, August, 1856

Messrs. Hodges & Company:

GENTS.—Having examined the plan proposed in your “Bank Note Delineator,” for enabling the public to detect Spurious and Altered Bank notes, by furnishing accurate descriptions of the genuine notes of all the Banks of the country, we take pleasure in expressing our approval of the same, as affording a simple and effectual protection against that species of fraudulent paper money.

Respectfully yours,

RAWDON, WRIGHT, HATCH & EDSON.

OFFICE OF DANFORTH, WRIGHT & CO., }
New York, August, 1856.

Messrs. Hodges & Company:

GENTS.—Your Bank Note Plate Delineator seems to possess unequalled merit in the detailed description it gives of all Genuine Bank notes, and combined with your Bank Note and Financial Reporter, you certainly offer a work of great utility, as a protection against frauds in paper currency.

Respectfully yours,

DANFORTH, WRIGHT & CO.

OFFICE OF WELLS, GOOD, HAY & WHITING, }
New York, August, 1856.

Messrs. Hodges & Company:

GENTS.—We regard your “Bank Note Plate Delineator” as a work that should receive the most favorable attention from all who are accustomed to handle Bank notes. The facility with which Altered, Spurious, or Counterfeit notes can be detected is such that the most inexperienced can scarcely go astray. And we have no hesitation in commending the work to the public as one which is much required, and as fully accomplishing its object.

With best wishes for the success of your efforts to prevent imposition, through the medium of your publication,

We remain, yours truly,

WELLS, GOOD, HAY & WHITING.

OFFICE OF THE NEW ENGLAND BANK NOTE CO., }
Boston, August, 1856.

Messrs. Hodges & Company:

GENTS.—Allow me to express to you my unqualified opinion in favor of your BANK NOTE PLATE DELINEATOR. The simplicity of it is what I most admire; the most inexperienced of the great mass, who are in the habit of taking Paper Currency, can at once detect an altered or spurious note, which are much more dangerous than counterfeits, and more numerous in circulation.

You have my best wishes for its success, believing it to be the best work of its character ever published.

ISAAC CARY, Agent.

New York, August, 1856.

Messrs. Hodges & Company:

GENTS.—We take great pleasure in endorsing Mr. Cary's opinion of your Bank Note Plate Delineator, and in recommending it as a work of the greatest utility.

Respectfully yours,

TOPPAN, CARPENTER & CO.

OFFICE OF THE AMERICAN BANK NOTE COMPANY, }
New York, August, 1856.

Messrs. Hodges & Company:

GENTS.—Attempts at literal imitation, or counterfeiting, in the present advanced state of Bank Note Engraving, are of infrequent occurrence, most of the notes represented in Bank Note Detectors and Reporters being either Spurious or Altered Notes.

Spurious Bank Notes merely retain the name of the Bank and place of issue—not always using the true name of the President and Cashier, and are made up of devices unlike those of the genuine notes, a want of familiarity with which, on the part of the public, being counted on in perpetrating these frauds.

Your “Bank Note Plate Delineator” supplies a desideratum in a manner so simple and so easy of reference that there can be no danger of suffering from Spurious or Altered Bank Notes, if brought to the test of comparison which it furnishes.

Respectfully yours,

JOCELYN, DRAPER, WELSH & CO.

TERMS:—Single Copies of the *DELINEATOR*, \$2 50; *BANK NOTE AND FINANCIAL REPORTER*, including *COIN CHART MANUAL*, \$2 per annum. The three together, \$3 50.
